COLLEGE AIR RICHELIEU
MONTREAL FLYING CLUB / AÉROCLUB DE MONTRÉAL

WHY CHOOSE COLLÈGE AIR RICHELIEU?

1 Canada's only ATO center

In 2020, Air Richelieu College has been chosen by Transport Canada to establish Approved Training Organization (ATO) certification in Canada. This certification, already in force in several countries around the world, will enable the introduction of a new competency-based approach.

2 Jazz pathway program

Thanks to this program, our most deserving instructors and students enrolled in college programs are given direct access to selection interviews for co-pilot positions at Jazz.

3 Integrated ATPL programs

Since our college's AEC and DEC pilot training courses include integrated ATPL training, they enable our students to take the SARON and SAMRA exams for the airline transport pilot license. So, unlike modular training, you'll be able to act as a first officer!

4 DCS college training

The DCS in Aircraft Piloting Techniques at Air Richelieu College offers a comprehensive, recognized training program aligned with airline requirements. It prepares students to excel in their careers through a balanced combination of theoretical courses and practical flight training.

DISCOVER THE DCS PROGRAM

DIPLOMA OF COLLEGIAL STUDIES

GETTING A **DCS** DIPLOMA MEANS ...

To have completed the most comprehensive and rigorous training available, combining hours of specific pilot training with hours of general training, and have developed all the professional skills required by the world's leading airlines.
